IN RE: MIDAMERICAN ENERGY COMPANY	DOCKET NO. TF-99-124 (RPU-98-5)
--	------------------------------------

ORDER APPROVING TARIFF

(Issued May 27, 1999)

On April 23, 1999, the Utilities Board (Board) issued an order approving a settlement in Docket No. RPU-98-5. On April 27, 1999, MidAmerican filed proposed tariffs, identified as TF-99-124, which were designed to implement the approved settlement agreement. The Board has reviewed the proposed tariffs and finds they substantially comply with the terms of the approved settlement agreement. The Board will approve the tariffs.

One item included in the proposed tariffs and not included in the approved settlement agreement involved the charges for Requested Turn-Off service. The changes approved in the settlement would make the after-hours charges in the East system match those in the West system. However, the approved settlement included this change for Turn-On service and reconnection charges but not for Turn-Off service charges. Because it is necessary to make the charge for Turn-Off service in the East and West systems consistent, the Board finds the change in tariff rates is reasonable.

IT IS THEREFORE ORDERED:

Tariff filing TF-99-124 is approved effective with usage on or after the date of this order, subject to complaint or investigation.
